

I am Inuk I am Alive
INUUVUNGA

Eight 17-20 year old Inuit students from Innalik school, in Inukjuak, Québec were given the opportunity to express through a unique project issues relative to their lives. The National Film Board of Canada provided 2 mentors to the project to introduce basic documentary filmmaking techniques to these students. Each month from September to July their role was to teach everything from storytelling to POV documentary in order to provide the students with the skills needed to then create their individual films. This one hour film depicts the "making of " this project in Inukjuak.
